

### Energiteknikk.net

The news outlet energiteknikk.net has a somewhat broader editorial profile than Energiteknikk, the technical trade magazine. At energiteknikk.net you reach engineers, installers and other technical staff, as well as managers in the renewable energy supply industry, and others engaged in professional fields related to the production and transmission of electricity and heat. All online advertising includes distribution in a daily newsletter sent to 8,000 subscribers.

### Desktop Formats

**Top banner**  
980x150 px – NOK 9,000

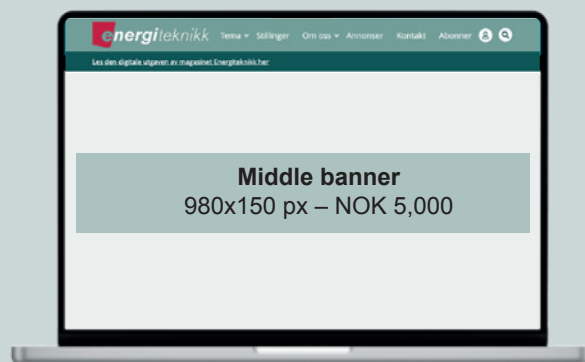

**Article banner**  
300x250 px  
NOK 9,000

**Front page banner**
